DEPARTMENT OF KAYACHIKITSA

- Ayurveda is having holistic approach towards life mainly concerned with the treatment of body, mind and soul.
- Kayachikitsa is the first branch of ashtangayurved that deals with general medicine, where kaya means body and chikitsa means treatment.
- Kaya also refers to agni on entire ayurvedic therapeutics is based on the concept of Agni. Correction of Agni is the basic line of treatment for most of the diseases.
- Another unique aspect of kayachikitsa is Rasayana (Rejuvenation) and Vajikaran (Aphrodisiac) Rasayanchikitsa is useful for promotion of health and curing enhances the sexual vigour and useful to procreate an ideal Progeny.
- The role of mind in the causation and cure of diseases is well recognized in kayachikitsa, hence due importance is given to strict mental discipline and adherence to moral values. For the same postment of manasroga is described in kayachikitsa.
- Curing the disease can be attained through shaman (pacification) and shodhana (purification/detoxification) chikitsa, shaman chikitsa pacify the morbid doshas, where asshodhan expels the accumulated doshas.
