DEPARTMENT OF RASASHASTRA

Rasashastra Bhaishajya kalpana Department deals with the Indian alchemy, pharmaceuticals and pharmaco-therapeutics. It offers to the students in terms of traditional and modern aspects of Ayurvedic pharmacology, ayurvedic pharmacy and pharmacotherapeutics. Students learn to identify hundreds of drugs, get hands on experience of making ayurvedic medicines as well as practical training of Shodhana, Marana, Pishtikarana etc. of the minerals and teaches the formulations of Kwatha, Vati, Avaleha, Rasakriya etc..

Department posses its own museum with Charts, Models and Specimens. A well maintained museum is structured in a smart way to give a student, perfect knowledge of the drug materials that are used in Ayurveda. Specimens of various metals and minerals, their subtypes, are grouped appropriately and sequentially displayed in museum. This display of raw drugs helps to identify and understand the ideal sample of mineral and herbal drugs. A complete section of hundreds of ready to use formulations is a distinguished feature of the museum.

It also consists of mud models of traditionally used instruments and assemblies for processing mercury, sulfur, copper and other metal minerals to convert them into drugs.

Department is having separate Pharmacy area along with quality control laboratory and also having adequate space for performing practical for students. We are having separate Puta section for performing various preparations of Bhasma.
